

UNIVERSITY OF SZCZECIN

INSTITUTE OF MARINE AND ENVIRONMENTAL SCIENCES

together with

DDE Marginal Seas Task Group, Deep-Time Digital Earth, IUGS Big Science Program

and

Section of Marine Geology, Polish Scientific Committee on Oceanic Research,

Polish Academy of Sciences

warmly invite for

Szczecin Marginal Seas Webinars

Winter Semester 2023/2024

In memory of Prof. Dr. Andrzej Witkowski

**October 26
2023
2 pm (CET)**

Dr. Tim Jennerjahn

Leibniz Centre for Tropical Marine Research (ZMT), Bremen, Germany

A vicious cycle: how coastal development impairs biodiversity, Blue Carbon storage and other ecosystem services
- and what can be done

**November 16
2023
2 pm (CET)**

Prof. Dr. Teresa Radziejewska

Institute of Marine and Environmental Sciences, University of Szczecin, Poland

Climate change signals in the benthos of marginal seas

**December 14
2023
2 pm (CET)**

Dr. Peter Arlinghaus

Helmholtz-Zentrum Hereon, Institute of Coastal Systems - Analysis and Modeling, Geesthacht, Germany

Artificial Intelligence in marginal sea research
- chances and challenges

**January 11
2024
2 pm (CET)**

Dr. Przemysław Dąbek

Institute of Marine and Environmental Sciences, University of Szczecin, Poland

Dr. Piya Roychoudhury

Hemvati Nandan Bahuguna Garhwal University, Uttarakhand, India

Marginal Seas as target of green revolution
in food and technologies
